LJ Polytechnic, Ahmedabad

Diploma in Computer Engineering

JULY 2015 - JUNE 2018

Topics covered may include computer hardware and software, programming languages, data structures, algorithms, computer networks, and operating systems.

PROJECTS

Team - Hiring Platform

HTML / CSS / JAVASCRIPT / LARAVEL 9 / ReactJS / RESTAPI

As a dedicated developer, my primary responsibility is to plan, design, fulfill requirements, development, and maintain the project.

Implement an admin panel in Laravel 9 using custom theme development and create a multi-vendor system in which multiple companies are invited to build candidates that are hired by other companies. Implement a front that assists businesses and individuals in finding the best hiring employees for them.

Create restful APIs to communicate with databases using react js and laravel technologies. Create a single-page application for the front end to solve the problem of filtering a large amount of data. Planning to implement a safe and strong relationship-building mode.

Develop the project using frontend development such as HTML5, CSS3, Reactjs v.18, RESTAPI's, and backend technologies such as Laravel 9, and MySQL for database communication.

iProperty - Real Estate Project

HTML / CSS / JAVASCRIPT / LARAVEL 8 / GOOGLE MAP / RESTAPI

As a dedicated developer, my primary responsibility is to plan, design, fulfill requirements, development, and maintain the project.

With Laravel 8, implement a real estate-based project that is purely plugin-based scripts that help manage properties, lands, amenities, key features, blogs & news.

Implement a multi-vendor system for managing system administrators, agents, and users. RESTAPI helps to build applications and interact with databases.

Implement Google Maps with custom layers and draw polygons over the map to contain the data of lands and properties using lat and long coordinates.

Develop the project using frontend development such as HTML, CSS, JS, Bootstrap 4, and backend technologies such as Laravel 8, and MySQL for database communication.

Mystaa - Ecommerce Project

HTML / CSS / JAVASCRIPT / LARAVEL 8 / RESTAPI / NIMBUS POST

Responsibilities include implementing a shipping method using Nimbus POST, which includes RESTAPIs that enable in-shipment tracking.

Implement a pricing section that involves a price, a selling price, and a special price with a discount for the customers.

Implement other small modules for support.

LANGUAGES

English, Hindi, Gujarati, Sindhi

ACHIEVEMENT
